WELCOMING REMARK

Chairman of the 20th Annual Scientific Meeting of Asian Oceanian Myology Center

Dear friends and colleagues,

We are now pleased to announce that AOMC 2022 will be virtual and will take place on 9th-12th June, 2022 at Jakarta, Indonesia . The 20th Asian-Oceanian Myology Center Meeting will be held in conjunction with The National Scientific Meeting of Indonesian Neurological Association (PIN Perdossi 2022). We are delighted to invite you to attend the 20th Asian-Oceanian Myology Center Meeting, an annual conference of Asian Oceanian Myology Center (AOMC).

We will try to provide a best virtual platform for participants. The scientific program of AOMC 2022 will cover the most important fields of neuromuscular disease including clinical characteristics, pathophysiology, and innovative diagnostic technology and treatment of various neuromuscular diseases. Clinico-pathological conference, which is the most traditional and symbolic program of AOMC will be played on a platform that is fully interactive between chairs, speakers, and participants. Also, we will promote basic and clinical scientific research in the area of neuromuscular disease in Asia and Oceania and provide you with the opportunity for a multidisciplinary exchange between the various professionals involved in neuromuscular diseases.

Thank you for your continued interest in AOMC, and we hope you will join us virtually this June!

WELCOMING REMARK

President of the Indonesian Neurologist Association (PERDOSSI)

Dear colleagues,

The Perdossi 2022 Virtual National Scientific Meeting (PIN) in Banjarmasin is part of official Perdossi scientific agenda. This years it will be held in conjunction with an international event The 20th Asian and Oceanian Myology Center (AOMC) meeting, so it is expected to provide more scientific value to the participants. This event will be organized in conjunction by Perdossi Banjarmasin Chapter and AOMC in the management of PP PERDOSSI 2019-2024,

PIN will be held three times in during 2019-2024 for maintaining and increasing the knowledge and competence of medical doctors, especially neurologists. There will be ten study groups involved in this event: Pain, Headache, Neurophysiology, Movement Disorders, Epilepsy, Neuropediatrics, Neurotrauma, Neuroepidemiology, Neurotology, Sleep disorders and special topics of Myology from AOMC to provide a broad opportunity for all colleagues more scientific value.

On behalf of the President of PERDOSSI, we invite all neurologist colleagues to attend the PIN PERDOSSI-AOMC Banjarmasin 2022.

We expect our colleagues to discuss and share experiences to aim the vision of this event: ***Bridging Neurological Basic Science and Technique to Advanced Technology Services in The New Habit Era.***

President of Indonesian Neurological Association (PERDOSSI)

Dodik Tugasworo Pramukarso, MD, Consultant Neurologist, PhD

WELCOMING REMARK

Chairman of the National Scientific Meeting of Indonesian Neurological Association 2022

Praise and gratitude we pray to the God Allah, because only with His blessings and grace we can virtually hold the National Scientific Meeting of the Indonesian Neurological Association(PIN PERDOSSI) Banjarmasin 9-12th June 2022

PIN Perdossi Banjarmasin 2022 will be held in conjunction with the international event The 20th Asian and Oceanian Myology Center (AOMC) meeting, so it is expected to provide more scientific value to the participants.

Developments in the field of neurology have grown rapidly and are making many advances in both the diagnostic and therapeutic fields. Diagnostics have become easier and distinct, as well as advances in the field of therapy. The paradigm has been shifting from palliative to curative or achieving a better quality of life for patients than before. The Covid-19 pandemic on the other hand forces us to develop and become more familiar with digital technology. However, this progress must still be based on basic sciences and clinical skills. This consideration is in line with The theme at the PIN Perdossi -AOMC Banjarmasin 2022 event: ***Bridging Neurological Basic Science and Technique to Advanced Technology Services in The New Habit Era.***

The Scientific meeting at this time will involve 10 neurologic fields plus: Pain, Headache, Neurophysiology, Movement Disorder, Epilepsy, Neuropediatrics, Neurotrauma, Neuroepidemiology, Neurotology, Sleep Orders and Myology. Various scientific activities will be held in the form of symposiums, teaching courses, workshops, scientific posters, presentations of research results from neurology colleagues and neurology residents throughout Indonesia as well as our colleagues from abroad so that they are expected to enrich the participants' knowledge.

We express our gratitude and deepest appreciation to the Chairman of the PP PERDOSSI, Steering Committee, Study group of PERDOSSI, Organizing Committee who have worked hard to prepare this event, Sponsorship and others who could not mentioned for the support in the implementation of the PIN Perdossi-AOMC Banjarmasin 2022
